

KEY SKILL & EXPERIENCE

- ◆ Project **Management and Coordination**
- ◆ Ability to handle work in extensive hour and **Work pressure**.
- ◆ Understanding and implementation of **Project Planning**.

TECHNICAL SKILLS

Front End Development

- ◆ Languages: HTML, CSS, JavaScript
- ◆ Frameworks & Libraries: React.js, Next.js, Tailwind CSS
- ◆ Design: Responsive Design, UI/UX Principles

Back End Development

- ◆ Languages: Node.js
- ◆ Frameworks & Libraries: Express.js
- ◆ Database Management: MongoDB, Supabase, Firebase
- ◆ Authentication: Clerk, Firebase,

Others

- ◆ Languages: Python, C language
- ◆ Version Control: Git, GitHub

Projects

- ◆ **Freelancing Projects** – E-Commerce MVP, Portfolio Website, Real Estate Listing Platform, Blogging Platform
- ◆ **MVP Creating** - Developer Portfolio Builder, AI Image Generator, Recipe Sharing Platform, Task & Project Management Tool

COURSES & CERTIFICATION

- ◆ Harvard University: CS50's Introduction to Cybersecurity by Edx
- ◆ Meta Front End Developer (react, JavaScript, tailwind)
- ◆ JavaScript Algorithms and Data Structures language
- ◆ Crash Course Python by Google by Coursera
- ◆ Harvard University: CS50's Introduction to Computer Science (language, python, JS, SQL) by Edx
- ◆ Git and GitHub Basics by Edx

WORK EXPERIENCE

Product Design & Development

- ◆ **Custom Front-End Development:** Delivered responsive and dynamic user interfaces for clients using **React.js** and **Next.js**.
- ◆ **End-to-End Development:** Developed user-focused products by combining **React.js**, **Next.js**, and **Express.js** for smooth front-end and back-end integration.
- ◆ **Scalable Web Applications:** Built and deployed full-stack applications with **Next.js** and **MongoDB**, focusing on functionality and performance.
- ◆ **Database Integration:** Used **MongoDB** and **Supabase** to manage data storage and user authentication effectively.
- ◆ **UI/UX Design:** Created engaging prototypes and layouts with **Figma**, ensuring usability and aesthetic appeal.
